Standard CV items

CV items with logo

<cvitemlogo-title> , <location>   **<dates>**
<optional: description>

Multi-line description , <location>   **<dates>**
It also is possible to have a lot of this to say and for the description text to take multiple lines. It still looks awesome !

No logo , <location>   **<dates>**
Leave logo argument empty to keep the same margin, without logo.

Without description and location   **<dates>**

CV items without logo

<cv-item title> , <location>   **<dates>**
<optional: description>

Multi-line description , <location>   **<dates>**
It also is possible to have a lot of this to say and for the description text to take multiple lines. It still looks awesome !

Without description and location   **<dates>**

CV items without logo and date in front

<dates>   **<cv-item title>**   <location>
               <optional: description>

<dates>   **Multi-line description**   <location>
               It also is possible to have a lot of this to say and for the description text to take multiple lines. It still looks awesome !

<dates>   **Without description and location**

One-line

Key   Some further description

Key   Some further description. Can fill even more than only one single line while still keeping the correct indendation level.

Publication CV items

Publication title   Year
Authors
Journal

Publication title that is spanning over multiple lines and still does not look too bad   Year
Authors
Journal

And with date in front

Year   **Publication title**
               Authors
               Journal

Year   **Publication title that is spanning over multiple lines and still does not look too bad**
               Authors
               Journal
